

THE FIGHT AGAINST THE TOBACCO EPIDEMIC IS AT A CRITICAL STAGE. BOLDER, URGENT ACTION IS NEEDED.

TURKMENISTAN

HARM

Every year more than 4,900 people in Turkmenistan are killed by tobacco-caused disease, while more than 18,000 children and more than 728,000 adults continue to use tobacco each day. Comprehensive tobacco control policies, covering all forms of tobacco use, would reduce the death toll from tobacco, which otherwise would grow with each passing year. It will also help to ensure that the tobacco industry cannot run roughshod over the lives of the people of Turkmenistan. We encourage tobacco control advocates to reach out to other development communities to strengthen their efforts in this mortal fight.

DEATHS

% caused by tobacco, 2010

23.2%
OF MEN

More men, on average, die from tobacco use in Turkmenistan compared with other middle-income countries.

6.3%
OF WOMEN

Even though fewer women, on average, die from tobacco use in Turkmenistan compared with other middle-income countries, still 16 women are being killed by tobacco every week, necessitating action from policymakers.

INDUSTRY

The combined revenues of the world's 6 largest tobacco companies in 2013 was USD342 Billion, 89% larger than the Gross National Income of Turkmenistan. The industry is a powerful force that does not fear the actions of nation states because its resources are often much larger.

MARKET

ADULT SMOKING

% using tobacco daily, 2013

36.8%
OF MEN

More men, on average, smoke in Turkmenistan compared with other middle-income countries.

3.1%
OF WOMEN
